What is IYLIF

International Youth Leadership & Innovation Forum is a platform for youth from all around the world to speak, discuss and collaborate on topics that matter to them.

We believe innovations happen when we create an environment to foster creativity, meaningful dialogues, diversity and collaborations.

Annual IYLIF conferences bring together a global panel of experts, educators, parents and accomplished youth from all over the world. IYLIF is a platform that empowers youth to express their visions, actions and innovations. Here they can unravel infinite possibilities, go beyond the boundaries of countries and cultures to collaborate and achieve their full potential as global citizens and change makers.
